Subject: LC007

Dear Senator Curtiss:

I am writing this letter in support of LC007. I met Woody Chain several years ago at planning meetings. We developed a friendship over a period of several of these meetings. It was always a joy to meet Woody and his wife Annette in town on a shopping trip. As we were selling our house, we contacted Woody about a wood stove for heating in our new house. The sale fell through on the old house and we didn't have the money to complete the deal on the stove. Woody never hesitated and offered us a stove at no charge until we would be able to pay him. The purpose of this letter is to speak to the character of Woody. My experience with people that trust others is that they live that way because they are trustworthy. Woody has demonstrated to me by his actions that he is a trusted friend. He is an example of a person that will be helped by LC007 that is still paying for actions that are no longer happening and haven't happened in a long time. Woody is a contributing citizen of the State of Montana and a credit to his community. I am very happy to have friends like Woody and Annette in my life. Many more people will be helped by your attention to the situation in which Woody is mired.

Sincerely, Herb and Rhoda Cargill
